

# Software Developer & Photographer

Whether it's in my code or my photos, attention to detail is what I always strive for.

Learn More

## Who Am I?

My name is **Bao** and I am currently a Junior at the University of Washington studying Informatics with an emphasis on Data Science. I love developing tools for the web, especially those that have to do with Data Visualization. Longterm, I hope to work with health datasets to design and engineer solutions to help forward population health. As a hobby, I enjoy photography, as the idea of being able to slow down time and capture experiences has always fascinated me. Add more stuff later.

## What Can I Do?

### Technical Skill Set

Java

Python

R

JavaScript

HTML

CSS

Node.js

Shell Scripting

Restful APIs

Git Version Control

Sketch

Adobe Lightroom

### Relevant Courses

CSE373 Data Structures & Algorithm

INFO340 Relational Database

INFO343 Client-Side Web Development

INFO449 iOS Development

CSE374 Intermediate Programming Concepts

CSE415 Artificial Intelligence
